EXPERIENCE

Google, Austin, TX & Chicago, IL

Product Manager, Google Play Services

Jun 2026 – Present

- Own end-to-end platform roadmap and extensible API primitives powering global Android runtime services across 3B+ active devices; lead platform architecture spanning client SDKs and cloud backend services.
- Drive cross-functional alignment across 300+ internal contributor teams, systems engineering, Security, and Developer Relations; navigate complex safety, privacy, and data-handling tradeoffs for foundational platform APIs.
- Lead platform modernization from discovery through launch, establishing automated telemetry pipelines, SLA tracking, and developer velocity standards across 1P Google apps and 3P ecosystems.

Global Product Lead, Google Ads

Aug 2022 – Jun 2026

- Drove global product strategy, commercialization, and cross-functional alignment across Engineering, Product, and Sales for SMB Ads platform and measurement solutions.
- Owned roadmap of critical systems infrastructure and telemetry instrumentation, scaling high-throughput internal workflow automation and data pipelines.
- Spearheaded causal impact measurement frameworks to quantify adoption and engagement outcomes with rigorous attribution, steering multi-million-dollar revenue growth.
- Architected and shipped rapid internal prototypes leveraging LLMs and automated workflow agents, dogfooding tools with internal stakeholders to eliminate high-urgency workflow bottlenecks.

Technical Account Manager, Google Cloud

May 2021 – Aug 2022

- Partnered with enterprise engineering and IT/InfoSec leadership on cloud operations, navigating IAM/RBAC identity federation, data classification, auditability, and SOC2/ISO constraints.

DePaul University, Chicago, IL

Faculty Lecturer, Enterprise Cloud Computing (Graduate MSIS Program)

Aug 2023 – Nov 2025

- Designed and instructed graduate curriculum for Enterprise Cloud Computing; established standards, reusable frameworks, and practical systems engineering rituals for 100+ MSIS students.

Deloitte Consulting, Chicago, IL

Technology Consultant, Strategy & Analytics (Data Products)

Jun 2018 – May 2021

- Architected and executed enterprise data platform migration from legacy Teradata + DataStage to Snowflake + SnapLogic for 3 data warehouses (20 TB, 1,500+ objects, 2,500+ ETL jobs) in 6 months, achieving a 35% yearly cost reduction.
- Designed and delivered 25+ enterprise reporting and workflow platforms on Snowflake, integrating CRM and ERP transaction data to support 50+ global portfolios generating \$30B+ in annual sales.
- Led cross-functional squad of 5 developers from discovery to launch, delivering 2 enterprise self-service analytics platforms; co-authored winning client pursuits worth \$2M on Power Platform.

Thorogood Associates, Bangalore, Karnataka, India

Business Intelligence & Analytics Consultant

Jul 2015 – Apr 2017

- Designed and deployed automated internal tooling and data frameworks using SQL, SSIS, C#, and Power BI, cutting recurring operational costs by 50%; authored enterprise governance and security architecture blueprints for cloud platform adoption.

EDUCATION

Indiana University – Kelley School of Business, Bloomington, IN

Dec 2018

Master of Science in Information Systems (Business Intelligence & Analytics) · GPA 4.00 / 4.00

- Leadership: President, IU Enterprise Systems Club; Graduate Teaching Assistant (IT Strategy & Case Analysis)

National Institute of Technology Karnataka (NITK), Surathkal, India

May 2015

Bachelor of Technology in Electrical and Electronics Engineering · GPA 3.54 / 4.00

TECHNICAL SKILLS & CERTIFICATIONS

- **Product Management:** End-to-End Product Lifecycle (Discovery to Launch), Platform Primitives & APIs, Internal Tooling & Workflow Automation, LLM & Agentic Systems Integration, Telemetry Instrumentation, Causal Impact & Attribution, Ruthless Prioritization, Dogfooding & User Discovery
- **Enterprise IT & Systems:** IAM / RBAC Identity Federation, Data Classification & Auditability, Enterprise SaaS Integration (Slack APIs, Google Workspace), Distributed Systems Architecture, Cloud Infrastructure (GCP, Snowflake, BigQuery, Azure, Teradata)
- **Languages, Tools & Honors:** SQL, Python, R, C#, Power BI, Tableau · Google Cloud Digital Leader, SnowPro Core Certified, Dataiku Core Designer · 2x Start-Up Deloitte Finalist · INSPIRE Scholar (Top 1% Nationwide)
